REMARKS

The figures of births and deaths shown in this statement for week ending the 26th October, 1957 relate to 145 towns with an estimated population of 18,689 thousands. Information about Andhra Pradesh, Assam, Bombay, Madhya Pradesh, and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 45% of the total number of towns representing 44% of the total population is covered in this statement. The

number of births and deaths recorded in these towns were 10,732 and 3,940 representing birth and death rates of 29.9 and 11.0 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States :—

States	Current w/e 26-10-57		Corresponding w/e last year
